#### Purpose of Inspection:

This was a routine inspection.

#### Inspection Summary:

The bond was scheduled for escalation on April 29, 2011. On January 28, 2013 the Division sent the Operator a letter reminding him that he had until February 28, 2013 to submit the bond. If the bond was not submitted by that the date the Division would issue a cessation order.

On May 13, 2013, the Division issued a cessation order and the Operator had until June 28, 2013 to provide additional surety or begin reclamation by than July 1, 2013 and finish no later than September 5, 2013.

On June 6, 2013, the Operator submitted an application of bond release.

During the inspection, the Division found trash, equipment and stockpiles of stone.

**Conclusions and Recommendations:**

The site does not meet the minimum requirement for partial bond release. The Operator should finish reclaiming the site or post additional bond.
